SUMMARY

Software engineer with 1.5+ years of hands-on experience through internships, freelance projects, and student organizations. Experienced in building and scaling web and mobile applications used by thousands of users, and in leading development teams to deliver production-ready systems. Strong background in backend and full-stack development using JavaScript, TypeScript, Go, and PHP.

EDUCATION

University of Indonesia
Bachelor of Computer Science

Jakarta, Indonesia
Aug 2023 – Present

EXPERIENCE

Fullstack Developer (Freelancer)
Pemira FIA UI 2025

Nov 2025 – Jan 2026
Jakarta, Indonesia

- Designed and developed a public election web platform used by multiple student organizations at FIA UI 2025
- Engineered a scalable backend architecture supporting 2,000+ concurrent users during peak voting
- Implemented RBAC and SSO-based authentication with end-to-end encrypted anonymous voting tickets
- **Tech Stack:** React Router v7, Golang, Redis, PostgreSQL, AtlasGo.io, Docker

Teaching Assistant of Platform Based Programming
Fasilkom UI

Jul 2025 – Dec 2025
Jakarta, Indonesia

- Assisted in teaching platform-based application development using Django and Flutter to 60+ students
- Guided students through hands-on labs covering development with Django and cross-platform mobile development with Flutter
- Reviewed assignments and provided technical feedback on Django and Flutter-based projects

Teaching Assistant of Programming Basics 2
Fasilkom UI

Jan 2025 – Jun 2025
Jakarta, Indonesia

- Assisted in teaching programming concepts using Java, including test driven development and object-oriented programming
- Reviewed 15+ student Java programming exercises and provided structured technical feedback
- Supervised weekly lab sessions and resolved 50+ student questions related to fundamental programming concepts

Web Developer Associate (Part Time)
Economic Space

Aug 2024 – Apr 2025
Surabaya, Indonesia

- Developed a tutor service web application using Laravel for economics-related subjects
- Implemented user registration and payment functionalities with static QR code integration
- Led a team of 7 web developers, coordinating code reviews, merges, and feature delivery
- **Tech Stack:** Laravel PHP, PostgreSQL, Docker, AWS

ORGANIZATION EXPERIENCE

Vice Manager of IT-Development Field
COMPFEST 17 Fasilkom UI

Jan 2025 – Nov 2025
Jakarta, Indonesia

- Led two divisions (Software Engineering and UI/UX) managing 24 members
- Planned and monitored development timelines using Scrum-based agile workflows
- Collaborated with product owners to deliver platforms reaching 22K users and 400K+ website interactions
- **Tech Stack:** React Router V7, NestJs, Go, AWS, SMTP, Cloudflare, PostgreSQL, Docker Compose

Vice Person in Charge of Web Development Division
BETIS Fasilkom UI

Oct 2024 – Mar 2025
Jakarta, Indonesia

- Led a team of six developers, coordinating code integration and feature delivery

- Implemented a real-time tryout system using Markdown-based questions and WebSocket communication, supporting 250+ concurrent users
- Conducted code reviews and mentored developers to improve code quality and system reliability
- **Tech Stack:** Next.js, NestJS, Go, AWS, Redis, Cloudflare, PostgreSQL, Docker Compose

Software Engineer Division at Business & Partnership
BEM Fasilkom UI

Jun 2024 – Dec 2024
Jakarta, Indonesia

- Developed tailored websites for external clients meeting specific requirements
- Provided training and mentorship to BEM intern staff in web development
- Collaborated with non-technical stakeholders to translate business requirements into technical solutions—
- **Tech Stack:** Next.js, NestJS, PostgreSQL, Docker Compose

Software Engineer of Multimedia Bureau
BEM UI

Mar 2024 – Dec 2024
Jakarta, Indonesia

- Developed multi-event recruitment platform using Next.js and Firebase
- Designed and implemented a modern, responsive UI using ShadCN and Framer Motion to improve user experience
- **Tech Stack:** Next.js, Firebase, PostgreSQL, Docker Compose

Software Engineer Expert Staff
Open House Fasilkom UI

Jul 2024 – Nov 2024
Jakarta, Indonesia

- Built a dynamic frontend using Next.js and TanStack Query to optimize data fetching and performance
- Developed and maintained backend services using Hono, Prisma ORM, and Neon
- Delivered a production website expected to serve 800+ users
- **Tech Stack:** Next.js, Hono, Prisma ORM, PostgreSQL, Docker Compose

AWARDS & ACHIEVEMENTS

Binaguru - AI-Powered Educational Platform
1st Runner Up, GDGoC UI Hackathon

May 2025
Next.js, AI Integration, Educational Analytics

- Developed an AI-powered platform that empowers teachers with personalized course content
- Analyzes educational videos to provide detailed learning analytics and auto-generate course modules
- Leveraged AI to streamline content creation and support professional development for educators
- Contributed to both backend AI integration and frontend user experience

C2C Arts Marketplace with Cryptocurrency
3rd Place, HackJakarta Financial Inclusion

Jul 2024
Next.js, Firebase NoSQL, Cryptocurrency Integration

- Built an innovative C2C marketplace for arts using cryptocurrencies
- Enhanced financial accessibility through cryptocurrency payments
- Utilized Next.js for frontend and Firebase for database and authentication
